

DIVISION OF HOMELAND SECURITY AND EMERGENCY SERVICES

Training Announcement

**Fire Prevention
and Control**

The Rules Have Changed...The Firefighter's Guide to Lightweight Wood Construction (01-05-0071)-066

Full Description: This course introduces the student to the special characteristics and considerations of Lightweight Wood Construction. Topics such as manufacturing methods, component awareness, fire performance, and strategies & tactics pertaining to fires involving lightweight wood construction will be examined. Primary emphasis is on improving fire personnel's ability to recognize the presence of lightweight wood construction and the hazards related with it. Course material enables the student to recognize the dangers, operate safely and better predict the overall reaction of a building during fire conditions. The course includes three student activities.

Instructor: William Farrell CFI

Designed for: Fire Service Personnel
